

Quiz: Practice with Beginning Congruent Triangle Proofs

Given: $\angle LNM, \angle ONM$ right \angle s, $LM=MO$

Prove: $\triangle LNM \approx \triangle ONM$

1 $\angle LMN, \angle ONM$ rt \angle s

2 $\triangle LNM, \triangle ONM$ rt \triangle s

3 $LM \approx OM$

4 $MN \approx MN$
Given
Given

5 $\triangle LNM \approx \triangle ONM$

Given: $SU \approx VW$, SW bisects UV , UV bisects SW .

Prove: $\triangle PQT \approx \triangle SRT$

6 $SU \approx VW$

7 T is the midpoint of UV and SW

8 $ST \approx TW$

9 $UT \approx TV$

10 $\angle PQT \approx \angle SRT$

Circle # Correct	0	1	2	3	4	5	6	7	8	9	10
Percentage Score	0%	10%	20%	30%	40%	50%	60%	70%	80%	90%	100%
