

Homework: Place Value 1 to 100,000 in Standard Form

Write the number in standard form from expanded notation.

Ex. $9,000 + 400 + 50 + 7 = 9,457$

Start with the number word. Turn into expanded notation. Solve.

Ex. one thousand, forty-seven = $1,000 + 40 + 7 = 1,047$

Start with place values and turn into standard form.

Ex. 2 thousands 9 hundreds 8 tens 1 one = $2,981$

Write each number in standard form.

1. $60,000 + 2,000 + 500 + 90 + 4$

2. 3 ten thousands 2 thousands 4 hundreds 3 tens 1 one

3. Ninety-six thousand, seven hundred fifty-six

4. $8,000 + 300 + 5$

5. 6 tens 3 ones

6. Three thousand, two hundred seventy-eight

7. $20,000 + 6,000 + 500 + 40 + 3$

8. 7 ten thousands 2 thousands 4 hundreds 6 tens 1 one
